Commercial Construction

Use Case

Celebration/Milestone/Achievement

Application

A construction company wanted to celebrate the completion of a new project with a lighthearted, food-focused gift for its team members. Using the myBatch configurator, the company started with the Large-sized myBatch box and included the Popperator Bottle Opener, Ceramic Square Coaster, Giddy Up Nuts Original Spiced Nuts and Rosemary Garlic Nuts, and Portland Syrups Beverage Mixers. The libations-themed kit was perfect for the celebratory event and made the company's recipients feel even more accomplished after the final push to complete the project. The construction firm was happy to show off its brand in full color on the reusable kitchen and bar staples.
