

NFC SCRIBE USER GUIDE

NFC Scribe (Item 720)

This sleek executive pen features NFC technology for seamless wireless data transfer to smartphones or tablets. Its soft-touch oval barrel ensures writing comfort, with smooth black ink. Each pen is programmed with a single URL, and with a dynamic URL, you can easily update it and track results to keep your campaign fresh and maximize ROI. Each pen comes in a poly bag with clear directions.

Directions

- Ensure NFC is enabled on compatible devices (iPhone 11 & up, Android 13 & up)
- Tap and hold the NFC symbol on the pen to the NFC-enabled area on your device
- Your device will automatically recognize the signal and open the programmed URL
- Tap the link to access your content

Programming the Pen

Hub will program each pen with a single URL. We recommend using a dynamic URL, such as Bitly, which allows you to easily update the link later and track usage and ROI, giving you flexibility to adapt your campaign.

Quality Control

Random Testing: A random selection of NFC pens will be tested to ensure proper linking and functionality.

Identification

NFC Symbol: Each Pen is equipped with the NFC symbol, clearly etched for easy identification by end-users.

Using the NFC-Enabled Pen with a Smartphone
