

Evergreen Self-Watering Globe

Item BGP415

Thrive with the Evergreen Self-Watering Globe. This globe gradually releases water into the soil, ensuring consistent hydration and preventing over-watering. Users fill it with water and insert it into their plants, reducing the need for manual watering. It ensures plants receive the necessary water to thrive and promote healthier growth. Saves time and effort, ideal for busy individuals or those with multiple plants.

- Automated Watering: Ensures consistent hydration, preventing over-watering.
- Convenience: Easily fill, insert into soil, reducing manual watering efforts.
- Plant Health: Promotes healthier growth with the right amount of water.
