

2 FOLD

Instruction Manual

Product Specs

Name: 2Fold

Item: 34061

Color: Black

Input: 5V

Output: 15W max

Information

1. To achieve the best charging effect, please use the 9V/3A charging cable.
2. Connect the USB-C power cord to charger and proper power source.
3. Phone protection case needs to be 3mm or less to ensure proper charging. Cases made of metal, attachments such as magnets, cards, or grips will interfere with charging.
4. Ensure mobile phone supports wireless charging function.

Product Set Up

Open the back of the charger and unwind the USB-C charging cable.

Connect the cable to a proper power source and check that the device is plugged in.

Set up the stand in an A frame position and fold out the phone support.

Alternatively, leave charger folded up and lay flat. Set phone on stand and charge away!

Note:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
