

Cloudburst 7" Rain Gauge

Item #GP249RG

Track rainfall easily and accurately with this durable rain gauge, designed for long-term use outdoors. Large, molded numbers are built right into the tube—so they won't fade, peel, or wash away over time. Measuring in precise 1/8" increments up to 7 inches, it's perfect for gardeners, farmers, and weather watchers alike. Install it in two different ways: mount the bracket to a post using your own screws, or simply stake it into the ground. Reliable, readable, and ready for whatever the forecast brings.

- Two ways to install: ground stake or post mounting.
- Rain gauge measures in 1/8 inch increments up to 7 inches.
- Large, molded numbers for easy readability that won't fade or wear off.
- Great for the agriculture industry and home gardeners.
