

UV AWARENESS WRIST BAND

Item #: MPC36UV

Change colour
with sun UV ray
exposure.
Reminder to
reapply sun
screen

Smart sun safety at a glance. This UV-detecting wrist band changes shades of purple to help you monitor sun exposure in real time. As UV levels rise, the band darkens, giving you a visual cue to reapply sunscreen, seek shade, or take a break from direct sunlight. Lightweight and reusable, it's a simple and effective tool for outdoor activities, beach days, sports events, or everyday sun safety. Ideal for all ages and perfect for wellness programs, camps, and festival giveaways.

- Color-changing technology responds to sunlight.
- Color transitions from white to dark purple as sun exposure increases.
- Silicone material is lightweight and comfortable to wear all day.
- Perfect as a giveaway at outdoor events.
