

McLovin

ITEM: 37710

The McLovin is the loving combination of two of our favorite products: the Tele-Port Phone Stand and ShowTime Ring Light. Take your virtual calls hands-free and well-lit. Unfold the Tele-port, place at your desired viewing angle, clip the ShowTime light to the top of your phone, and look your best on your mobile video calls. Both products offer large, full-color domed imprint areas to make double the brand impression.

- Two product kit, adjustable phone stand + smartphone ring light
- Hands-free, better-lit video calls
- Double the impressions with two large, full color domed imprint areas
