

4" Magnifying Rain Gauge

BGP247

Magnifying rain gauge helps you read the rainfall amount easily. Designed for the water to magnify the numbers, it measures rain fall events up to 4" and it is made with polystyrene material. The tapered point can be inserted into the ground or it can be mounted to a post or deck with your own screws. Reverse imprint shows through the clear plastic.

- Clearly a great rain tracking choice!
- Perfect for any gardener or farmer
- Magnified lines track up to 4 inches of rain
- Tapered design has the stake built in
